RAHMADANI SURYANTO DWI PUTRA

FULLSTACK WEB PROGRAMMER

Surabaya, Jawa Timur, Indonesia • 0858-0470-0802 • rahmadanisuryanto05@gmail.com • linkedin.com/in/rahmadanisdp • github.com/Rahmadani05 • my-portfolio-dani.vercel.app

PROFESSIONAL SUMMARY

Fullstack Web Programmer based in Surabaya, Indonesia, with proven experience in engineering robust backend architectures (PHP, Laravel, Lumen, Node.js) and modern interactive frontend applications (Vue.js, React, TypeScript). Demonstrated track record in enterprise systems, relational database optimization (PostgreSQL, MySQL, SQLite), secure RESTful API integrations, and cross-platform mobile solutions (Flutter). Passionate about writing clean, maintainable, and high-performance code that translates complex business requirements into scalable digital solutions.

PROFESSIONAL EXPERIENCE

Energeek
March 2026 – Present

Fullstack Web Programmer (Full-time)
Surabaya, Jawa Timur (Hybrid)

- Architected and developed enterprise web applications and centralized management systems to serve institutional and enterprise client requirements.
- Engineered high-throughput, secure RESTful APIs utilizing **Laravel** and **Lumen** micro-frameworks for seamless system integration.
- Developed dynamic, component-driven client interfaces utilizing **Vue 3** and **TypeScript**, ensuring optimal responsiveness and state management.
- Optimized complex database schemas, transaction pipelines, and queries across **PostgreSQL** and **MySQL** databases.

DB Klik
September 2025 – December 2025

Full Stack Web Developer (Internship)
Surabaya, Jawa Timur (On-Site)

- Spearheaded fullstack development and maintenance for the company's retail e-commerce web platform.
- Integrated automated logistics APIs (**RajaOngkir**) and payment gateway processing (**Midtrans**) for seamless checkout workflows.
- Enhanced retail transaction security, designed relational data models for product cataloging, and streamlined order fulfillment cycles.

Dinas Kesehatan Provinsi Jawa Timur
June 2025 – August 2025

Front-End Mobile Developer (Internship)
Surabaya, Jawa Timur (On-Site)

- Engineered the client-side architecture for the **E-Kinerja** mobile application using **Flutter** to track employee Key Performance Indicators (IKI).
- Integrated mobile UI with backend RESTful APIs, facilitating real-time data sync, secure user session management, and fluid UI experiences.

Dinas Kesehatan Provinsi Jawa Timur
January 2025 – April 2025

Full Stack Web Developer (Internship)
Surabaya, Jawa Timur (On-Site)

- Developed the **E-Profile** web application to record, aggregate, and monitor public healthcare service data from Community Health Centers across East Java.
- Designed normalized database structures and implemented secure server-side logic in **Laravel** and **MySQL** with Role-Based Access Control (RBAC).

Course-Net Indonesia
September 2024 – December 2024

Cyber Security Specialist (MSIB Batch 7)
Remote

- Completed intensive industry mentorship focusing on network defense architectures, vulnerability assessments, and OWASP Top 10 security standards.
- Applied cybersecurity principles in web application engineering to safeguard API endpoints and protect sensitive data assets.

TECHNICAL SKILLS

Programming Languages:	PHP, JavaScript (ES6+), TypeScript, Python, Dart, Java, HTML5, CSS3
Backend Development:	Laravel, Lumen, CodeIgniter, Node.js, Express, Django, Flask, RESTful APIs
Frontend Development:	Vue.js (Vue 3), React.js, Next.js, jQuery, Tailwind CSS, Bootstrap
Mobile Development:	Flutter, React Native
Databases:	PostgreSQL, MySQL, SQLite, MongoDB, Firebase
Tools & DevOps:	Git, Docker, Bruno, Postman, VS Code, Vercel

FEATURED PROJECTS

SIKAP BIJAK (Pembuatan Bukti Potong Pajak) — Laravel 12, Vue 3, TypeScript, PostgreSQL, 2FA Auth

- Aplikasi administrasi dan perekapan pembuatan bukti potong pajak Bagian Umum Pemkot Surabaya dengan kalkulasi pajak otomatis, audit trail SPJ, 2FA Google Authenticator, dan ekspor rekapitulasi data.

Dinkop UMKM (NADI) Enterprise Platform — Laravel 12, Vue 3, TypeScript, PostgreSQL, Pinia

- Monitoring and data aggregation dashboard for Department of Cooperatives & MSMEs, featuring geospatial merchant profiling, 2FA security, stand occupancy metrics, and daily revenue analytics.

Posko PU Bojonegoro (Maintenance & Inventory) — Lumen, Laravel 6, PostgreSQL, SQLite, Vue.js, jQuery

- Engineered responsive web UI and multi-platform RESTful APIs for web & mobile technicians, handling equipment serial tracking, real-time stock reconciliation, and preventive maintenance workflows.

ESS-DWP Surabaya (Employee Self-Service) — Laravel 8, PostgreSQL, JWT Auth, Blade, jQuery, Google Maps API

- Developed unified web & mobile ESS platform with GPS geolocation attendance check-in/out, shift rotation scheduling, employee turnover analytics, and DataTables server-side processing.

Bank Data (SI OM EKSIS) — Laravel 5.5, PostgreSQL, Vue.js, jQuery, JWT Auth, DataTables

- Fullstack data repository and financial analytics platform designed for regional economic surveillance, inflation trend monitoring, and multi-period macroeconomic visualization.

EDUCATION

Universitas 17 Agustus 1945 Surabaya — 2022 – 2026

Bachelor of Computer Science (S1 Teknik Informatika) — **GPA: 3.73 / 4.00 (Cum Laude Honors)**

SMKN 7 Surabaya — 2018 – 2021

Computer and Network Engineering (Teknik Komputer dan Jaringan) — Average Score: 85 / 100
